Open Letter to Jacqui Smith, UK Home Secretary

God hates the United Kingdom, mostly a stinking little island where sodomy and all manner of sins of the flesh abound. The population consists almost entirely of sodomites, making it the land of the sodomite damned. When God blessed them with thousands of Puritans, they passed draconian laws to put God-blessed Puritan writers and preachers in jail, and otherwise persecuted them. John Bunyan, author of *The Pilgrim's Progress* – second only to the Bible in popular readership in those days – the Hell-bound Brits put Bunyan in jail for twelve and a half years, – for preaching the Gospel! Well, some God-forsaken little place called Basingstoke, UK, is planning to produce a disgusting little play, *The Laramie Project*, about a little pervert who got himself killed over drugs and money, trolling for trouble in a cowboy bar, at midnight, in Wyoming yet. Now the fags are trying to make a silk purse out of that sow's ear – turning a fast buck or two – pretending that the little pervert (Matt Shepard) was killed because he was a fag. All a lie. Now, on the tenth anniversary of his death Westboro Baptist Church is determined that all the world shall know the truth – that *The Laramie Project* is a hoax – a big lie – another lying fag fraud perpetrated on mankind. ABC's 20/20 investigated and aired the truth about *The Laramie Project* on Nov. 26, 2004. Now, anyone can read all about the details of this fag fraud on the Internet. The Lead Investigator of the homicide, a Detective with the Laramie Police Dept., whose name is Ben Fritzen, said the following: "Matthew Shepard's sexual preference or sexual orientation certainly was NOT the motive in the homicide. If it wasn't Shepard, they would have found another easy target. What it came down to really is drugs and money and two punks that were out looking for it." There you have it, from the mouth of Ben Fritzen, the man who led the team of police officers who investigated the Matthew Shepard murder. The stupid Brits at Queen Mary's College in Basingstoke, UK, – who watch *The Laramie Project* play, – will be watching fiction predicated upon a lie. Pure fag propaganda. In banning WBC from England, the misguided Home Secretary, Jacqui Smith, has not only blasphemed God Almighty by lifting up her hand against Gospel preachers, thereby incurring God's wrath, but she has also denied all England and the UK from knowing the established truth about the lying fag play, *The Laramie Project*. Here is the coming curse of God upon those who fight God's servants; to wit: "But they mocked the Messengers of God, and despised his words, and misused his prophets, until the wrath of the Lord arose against his people, till there was no remedy." 2 Chron. 36:16. What Home Secretary Jacqui Smith has done is ban God from the UK, and brought on His inevitable curse. God Hates England, land of the curse of the sodomites. Amen.
